Request for Requirements No. [REDACTED]

25X1X6

These requirements, as requested, are limited to matters of visual observation:

A. Report on the state of preparedness for civil defense as follows:

1. Location, approximate size and extent of completion of large building projects involving extensive dirt removal.

2. Laying of underground telephone and telegraph cable.

3. Method of construction and depth of basements of modern masonry buildings.

4. General level of efficiency and capability of fire defense methods and equipment.

5. Existence of water supplies, auxiliary to regular water lines,-- i.e. wells, swimming pools, reservoirs near government buildings, industrial plants, supply depots, and housing areas.

B. Look for evidence of wide-spread unemployment, such as crowds waiting around employment offices, forced migration to rural areas, or apparent make-work projects.
